CAREER OBJECTIVE

As a passionate tech enthusiast, I'm deeply immersed in learning coding, web development, and data analysis. Fueled by curiosity, I actively seek hands-on challenges to build practical skills and problem-solving abilities, eager for continuous growth in this ever-evolving field.

EDUCATION

Integrated B.Tech & M.Tech, Computer Science & Engineering 2021 - 2026
VIT AP CAMPUS

CGPA: 7.37/10

Senior Secondary (XII), Board Of Intermediate Education Andhra Pradesh 2021
Science

Akansha Junior College

Percentage: 76.10%

Secondary (X), Board Of Secondary Education Andhra Pradesh 2019
Sree Narayana High School

CGPA: 8.80/10

TRAININGS / CERTIFICATIONS

AI Using Google TensorFlow Powered By Google Developers

Jun 2024

SmartBridge, Virtual

This course helped me to understand the working of AI and its principles and how to utilize the current trend of AI to manage the workflow and be ready with upcoming trends and new features

PORTFOLIO

PROJECTS

Online Shopping

Jul 2023 - Nov 2023

This is the project which I have created when I was learning web development and it was fun to work on it took a lot of time and API syncing and many more but good to learn those.

AcuClaim: AI based sanctioning system

Jul 2025 - Present

It is an AI-based sanctioning system which is used in the medical fields to manage the bill of patients which runs on an ML model which is very efficient and can be used in a Raspberry Pi and can be operated via Bluetooth and WiFi.

SKILLS

- HTML 5
- CSS3
- JavaScript
- Python
- Java
- Node.js
- Express.js
- React
- APIs
- TypeScript
- Machine Learning

EXTRA CURRICULAR ACTIVITIES

- I had a wonderful experience in taking my team to coding contests and had a good time working on competitive coding
